 <b><u>Big Bad Ironclad!</u></b> This book covers the history of the amazing ironclad steam warships used in the Civil War. From the ship's inventor, who had a history of blowing things up and only 100 days to complete his project, to the mischievous William Cushing, who pranked his way through the whole war, this book is filled with surprisingly true facts and funny, brave characters that readers will easily relate to.	\$13 hardcover			
 <b><u>Raid of No Return: A World War II Tale</u></b> On December 7, 1941, the Japanese bombed Pearl Harbor, officially bringing the United States into World War II. A new generation of pilots were recruited to fly bombing missions for the United States, and from that group, volunteers were requested for a dangerous secret assignment. Once at sea, they were told their mission was a retaliation strike against targets in Tokyo. But on the day of the raid, a Japanese patrol boat spotted them and they had to launch early, with barely enough fuel to get them past their target. With tales of high-flying action and bravery, Raid of No Return is a story of heartbreak and survival during wartime.	\$12 hardcover			
 <b><u>Alamo All-Stars</u></b> In the early 1800s, Texas was a wild and dangerous land fought over by the Mexican government, Native Americans, and settlers from the United States. Beginning with the expeditions of the so-called "Land Pirates," through the doomed stand at the Alamo, and ending with the victory over Santa Anna at the Battle of San Jacinto, the entire Texas saga is on display. Leading the charge to settle this new frontier is Stephen F. Austin, with a cast of dangerous and colorful characters, including Jim Bowie, William Travis, David Crockett, and others.	\$12 hardcover			
 <b><u>Lafayette! **NEW RELEASE!**</u></b> Gilbert du Motier became the Marquis de Lafayette at a young age, but he was not satisfied with the comforts of French nobility—he wanted adventure! A captain at eighteen and a major general by nineteen, he was eager to prove himself in battle. When he heard about the Revolution going on in America, he went overseas and fought alongside Alexander Hamilton and George Washington for America's independence.	\$13 hardcover			
 <b><u>One Trick Pony</u></b> The aliens have arrived. And they're hungry for electricity. In the Earth of the future, humans are on the run from an alien force—giant blobs who suck up electrical devices wherever they can find them. Strata and her family are part of a caravan of digital rescuers, hoping to keep the memory of civilization alive by saving electronics wherever they can. Many humans have reverted to a pre-electrical age, and others have taken advantage of the invasion to become dangerous bandits and outlaws. When Strata and her brother are separated from the caravan, they must rely on a particularly beautiful and rare robot pony to escape the outlaws and aliens—and defeat the invaders once and for all.	\$14 hardcover
